

Job description – Business Analyst

Our Company

AIOTRIX is an AI and software engineering company focused on building intelligent, real-time systems for modern businesses. As the innovation lab of Bix Bytes Solutions, AIOTRIX specializes in Artificial Intelligence, Machine Learning, IoT, Edge Computing, and Intelligent Automation. We design and develop scalable, AI-powered solutions that help organizations automate processes, make faster decisions, and drive digital transformation. Our commitment to innovation, engineering excellence, and real-world impact enables us to deliver reliable, future-ready technology solutions across industries.

Role Overview:

The candidate will support project management activities across both client projects and internal initiatives. Their responsibilities will include understanding business and client requirements, preparing documentation, reports, coordinating with development teams, testing features etc. The role will also involve supporting social media activities, preparing captions, descriptions, blog preparations.

This is not a role limited to documentation, reports and meetings. The candidate should be comfortable working directly with AI tools, automation platforms and application workflows. Depending on the project requirements, they may also be expected to contribute to programming or development activities.

Key Responsibilities:

- Understand business, product and client requirements.
- Convert ideas into workflows, user stories and technical requirements.
- Research AI models, tools, APIs, frameworks and market opportunities.
- Coordinate with development, design, QA and business teams.
- Prepare product documentation, reports, proposals, presentations and process flows.
- Test features and validate them against the defined requirements.
- Analyze data and prepare meaningful business and product insights.
- Support social media content, captions, descriptions and script preparation.

- Contribute to coding and development activities when required.

Benefits:

- Competitive salary
- Gratuity
- Health benefits for you, your family and your parents
- Fair and transparent compensation based on performance
- Pension Plan Travel allowance
- Employee referral program Internal/External/Online training

What you'll Love About Us:

- Great company culture
- Motivated teammates have common goals
- Work in Indian Time Zone Weekend off Work stays at work.
- Better work/life balance
- Everyone is empowered to speak
- We encourage open-mindedness and thoughtful disagreement
- High Ethics, transparent and truthfulness

This is your chance to build a great career with a fast-growing company built on strong principles and core values. Contact and meet us. We are Bix Bytes.
